DETAILED ACTION

Claims 1-47 are pending in the application.

Election/Restrictions

Restriction to one of the following inventions is required under 35

U.S.C. 121:

- I. Claims 1-3 and 42-47, drawn to products, classified in class 548, subclass 311.4.
- II. Claims 4-19, drawn to a process, classified in class 548, subclass 439.
- III. Claims 20-25, drawn to a process, classified in class 548, subclass 311.4.
- IV. Claims 26-41, drawn to a process, classified in class 548, subclass 311.4.

The inventions are distinct, each from the other because of the following reasons: Inventions of Group I and Group IV are related as

process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the product as claimed can be made by another process.

The processes of Groups II-IV are patentably distinct because the processes utilize different reactants/starting materials, require different reaction conditions and produce different products.

Because these inventions are distinct for the reasons given above and the search required for Group I, for example, is not required for Group II, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

It is suggested that in order to advance prosecution, the non-elected subject matter be canceled when responding to this Office Action.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Laura L. Stockton whose telephone number is (703) 308-1875. The examiner can normally be reached on Monday-Friday from 6:00 am to 2:30 pm. If the examiner is out of the Office, the examiner's supervisor, Joseph McKane, can be reached on (703) 308-4537.
